Full-Year Plan – Every Other Month (6 Events / Year)

Goal: Build a structured, high-value educational pathway that grows your Study Club, boosts hygiene laser adoption, and positions your practice as a regional leader.

YEARLY SCHEDULE (Start Anytime)

SESSION 6 (Month 11) – FULL-SCOPE INTEGRATIVE CARE

“Integrative Laser Dentistry: Connecting Oral Inflammation to Whole-Body Health”

Focus:

- Inflammation model
- CRP, diabetes, and cardiovascular link
- Laser’s role in lowering the inflammatory burden
- Patient communication
- Marketing + case acceptance for laser hygiene

Deliverable:

- Printable handouts for hygienists to use with patients
- A patient-facing “Why we use the laser” brochure

CE Registration Fees

\$35 – Hygienists | \$49 – Dentists

Abstract

In the final session, Dr. Mati will bring together all components of laser-enhanced periodontal and preventive care. Attendees will learn full-department integration strategies, documentation and billing guidance, safety compliance, and advanced clinical applications. The session concludes with a practical blueprint that hygienists can apply immediately in daily clinical practice to elevate the patient experience and improve long-term outcomes.

Hands-On Module: Full-protocol practice; case-based laser workflow scenarios.

Speaker Bio – Dr. Suhail Mati

Dr. Suhail Mati is a nationally recognized implant dentist, educator, and director of Advanced Dentistry Center and Mati Integrative Dental & Implant Center. With credentials including DABOI, FAGD, AFAAID, and DICOI, Dr. Mati is deeply committed to advancing clinical education for dentists and hygienists. His integrative approach emphasizes laser-enhanced periodontal health as the cornerstone of long-term restorative and implant success.

Optional Add-On Events

Depending on interest, these could be bonus small-group workshops:

- Certification Day (meet CE requirements)
- Laser Safety Officer Training
- Live Patient Demo Day
